EDUCATION

California State University, Fullerton

Fullerton, CA

Bachelor of Science in Computer Science, Minor in Data Science, Minor in Communication Studies

May 2027

Relevant Coursework: Data Structures, Software Engineering, Compilers & Languages, Operating Systems

EXPERIENCE

DoorDash | Event Specialist Campus Launcher

August 2026 – Present

DoorDash

Fullerton, CA

- Managed event logistics from planning through execution, and adapting strategies based on audience feedback to develop and execute user-focused experiences that drive engagement
- Represented DoorDash as a campus brand ambassador by planning and executing student-facing events and activations designed to increase product awareness

Video Game Development Club (VGDC) | President

October 2025 – Present

California State University, Fullerton

Fullerton, CA

- Led and directed the strategic vision and operations of a student organization serving 100+ members, overseeing event planning and cross-team collaboration
- Designed and delivered hands-on technical workshops on Unity, C#, and game architecture, increasing member engagement and project completion rates

Association of Computing Machinery (ACM) | Co-Leader, Board Officer

June 2025 – Present

California State University, Fullerton

Fullerton, CA

- Organized and executed technical workshops, networking events, and semester long open source projects, helping 150+ students in developing technical skills by providing mentorship
- Led project teams contributing to open-source repositories, facilitating Git-based workflows, code reviews, and collaborative development

Oddinary Farm | Associate Director

January 2025 – June 2026

Spring Rolls Studios

Santa Ana, CA

- Oversaw development workflows, coordinated team tasks, and engineered Unity gameplay mechanics and UI classes
- Facilitated playtesting sessions and feedback integration, refining game balance, usability, and user experience

CIC-PCUBED Research Program | Researcher

May 2025 – August 2025

California State University, Fullerton

Fullerton, CA

- Conducted a quantitative finance research project analyzing over a decade of Google and Meta stock data
- Collaborated with peers and faculty mentors to apply statistical modeling and Python programming for analyzing correlation, spread behavior, and cointegration dynamics

PROJECTS

SonarPath | *React, Vite, TypeScript, Tailwind CSS, ArcGIS Maps SDK*

April 2026

- Built a real-time sea routing tool that visualizes underwater noise impact using Esri's ArcGIS Maps SDK
- Integrated ArcGIS spatial data to render interactive marine maps and designed the UI/UX using React, TypeScript, and Tailwind CSS, delivering a polished and intuitive interface within a 24-hour hackathon
- Won Best Social Impact & Sustainability track at CSU Fullerton's FullyHacks 2026 out of hundreds of participants

NodeBud | *Next.js, React, TypeScript, Tailwind CSS, shadcn/ui*

April 2026

- Owned end-to-end UI/UX design and front-end build of an AI mock-interview web app, taking it from wireframes to reusable production React components with responsive, mobile-first, user-centered design
- Built a shadcn/ui and Tailwind design system, and refined interactions and architecture by peer usability testing

Out of this World Cafe | *Unity, GitHub, Visual Studio Code, C#*

April 2025

- Team leader during CSU Fullerton's FullyHacks 2025, winning Best Game Project out of 400+ participants
- Led the development across UI/UX, interactive game objects, real-time feedback system, and Unity scene design

TECHNICAL SKILLS

Languages: C, C++, C#, Python, HTML, CSS, Javascript, TypeScript, SQL, x86 Assembly, Swift

Tools: React, Node.js, Vite, Svelte, SvelteKit, Tailwind CSS, Git, GitHub, VS Code, Visual Studio, Unity, Xcode
